RE: Permit No. 37-8205

Dear Mr. Brockway:

On October 19, 2009, the Department of Water Resources' southern regional office received the statement of completion for submitting proof of beneficial use and beneficial use field report for the above listed permit. IDWR's state office was not aware that the documents were submitted and issued a lapse notice for the permit on October 26, 2009. Once the proof statement and field report were received by the state office, the permit was restored to active status in the water rights database.

The proof of beneficial use statement will not be processed until the field report is deemed acceptable pursuant to IDWR's Beneficial Use Examination Rules. If the field report is acceptable, an acknowledgement of such will be mailed out to the permit holder. If it is not acceptable, a letter returning the report and/or requesting additional information will be mailed to you with a copy to the permit holder.

If you have any further questions, please feel free to call me at 208-287-4952.

Sincerely,

Emalee Rushing
Office Services Supervisor
