

MEMORANDUM

Date: October 23, 2009
To: Water Right File 35-13540
From: cpadilla
Re: License Review

This license will be issued as recommended by the field examiner. Although, there is a discrepancy in the priority date. The date the application was received by the regional office was 6/27/2005. The date that the fee was received, according to the application was 3/29/05 and the priority date reflected on the permit was 2/14/05.

According to the Water Appropriation Rules IDAPA 37.03.08.03, in order for an application to be acceptable for filing, the fees, the application, and any other supporting documentation needs to be received by the department.

It appears that we may have received the fees prior to receiving the full application for permit (see the letter from Lyle Yancy dated 2/11/05). The application clearly shows a "Received" date stamped 6/27/05. I will adjust the priority date to reflect the date that the application was received.
