2. Describe your proposal in narrative form, including a detailed description of non-irrigation uses to justify amounts transferred, (i.e. number of stock, etc.) and provide additional explanation of any other items on the application. Attach additional pages if necessary and label it Part 1A.2.

Correct the decreed legal description of applicants' irrigation place of use. As confirmed by Custer County Assessor, applicants own 3.8 acres with 0.5 acre located in the NWSE and the remaining 3.3 acres located in the NESE. Water right 72-2073D authorizes 2.0 acres irrigation on applicants' parcel, however lists all the place of use in the NWSE. To clarify the discrepancy, applicants propose 2 acres irrigation within their 3.8-acre property boundary.

Note: the associated GIS shape file created by the department for decree 72-2073D indicates the majority of the irrigation place of use in the NESE, however, irrigation in this tract was not listed on the actual decree record.
