NOTICE OF APPLICATIONS

Notice is hereby given that several applications have been filed with the Idaho Department of Water Resources as follows: **WILLIAM ARKOOSH, 2005 US HWY 26; GOODING ID 83330 has filed an Application to Amend Permit No. 37-21297** with diversions located within Lincoln County. Application proposes changing the point of diversion and place of use of permit which allows for the diversion of 500 cfs of water from the Little Wood River for power use. The purpose of the amendment is to allow for the construction of a proposed power plant on the south side of the Little Wood River, rather than the currently permitted location on the north side of the Little Wood River. The proposed change in point of diversion results in moving the point of diversion approximately 300 feet upstream from the permitted location to the site of an existing irrigation diversion. The proposed change in place of use is to an adjacent 40 acre tract from the currently permitted location to reflect the power house being located on the opposite side of the river. The project location is approximately 5.7 - 6.4 miles west and 2.1 miles north of the center of Shoshone. Protests may be submitted based on the criteria of Idaho Code § 42-211. **BRENT A. & CHALET FUNK, 845 S 1800 W; MURTAUGH, ID 83344 have filed Application for Transfer No. 74277** which proposes to dry up land about 5 1/2 miles south of Murtaugh in order to provide water for a new dairy to be built 5 1/2 miles west of Murtaugh. An existing irrigation well at the dairy site will be converted to dairy use, and a backup well will be drilled. The land being dried up is in Cassia County, and the proposed dairy site is in Twin Falls County. **VISSER HOLSTEINS, DBA Eagle View Farm, 450 E 3950 N; BUHL, ID 83316** has filed two Applications for Transfer concerning water rights within Twin Falls County.. **Transfer No. 75352** proposes to create a permissible place of use of 6,086.0 acres by tying together the points of diversion for 24 water rights currently diverting a combined total of 77.08 cfs and 17,624.6 AF from groundwater and Salmon Falls Creek for the irrigation of 4,900.3 acres. Thirteen existing wells, a diversion from Salmon Falls Creek, and a hot well in the canyon which is injected into and re-diverted from Salmon Falls Creek will be tied together. No new wells will be drilled. Location of the points of diversion is between 1 3/4 - 5 1/4 miles north and 3 3/4 - 5 1/2 miles west of Castleford. **Transfer No. 75353** seeks to update the place of use and add points of diversion to a water right currently diverting 2.02 cfs and 857.4 af for commercial and stock water use at an existing dairy. Thirteen existing wells will be tied together. No new wells will be drilled. Location of the wells is between 3 1/4 - 5 1/4 miles north and 3 3/4 - 5 1/2 miles west of Castleford****Protests against a proposed Application for Transfer may be submitted based on the criteria of Sec 42-222, Idaho Code.***** For specific details regarding an application, please contact IDWR Southern Regional Office at 208-736-3033 or visit the website for the Department at <http://www.idwr.idaho.gov/apps/ExtSearch/WRFiling.asp> Protests against approval of an application must be filed with IDWR, Southern Region, 1341 Fillmore St.-Suite 200; Twin Falls, ID 83301 with a protest fee of \$25.00 for each application on or before October 26, 2009. The protestant must also send a copy of the protest to the applicant.
