Subject: Approved Transfer 75759

Dear John,

Transfer 75759 for the Idaho Army National Guard was recently approved September 21, 2009. Because of the Department's expedited processing of the transfer application, the military was able to proceed with the funding approval process for the Operational Readiness Training Complex (ORTC) and construction is moving forward.

All the water right changes authorized by the transfer have been immediately initiated except for the addition of a new well. The well is scheduled to be substantially completed by May 1, 2012. Because of the Military's strict development time-line, we request that the transfer condition that requires authorized changes to occur within one year from the date of approval be extended to three years from the date of approval or September 21, 2012.

Thanks for your attention to this matter John and please let me know if there are any questions.

Sincerely,

Lori Graves
Water Rights Specialist
