

MEMORANDUM

Date: October 20, 2009
To: Water Right File 57-11660
From: csaxton
Re: Licensing Amendment

I received a call from Debra Campbell on 10-14-09. I was out of the office so I returned her call at about 9 am on 10-15-09.

Debra had just received the letter in the mail we sent dated 9-25-09 soliciting a licensing amendment that would increase the permitted diversion rate for domestic use from 0.07 cfs to 0.09 cfs as recommended by the licensing field examiner.

After discussing why there was a \$50 fee for the licensing amendment and what would change, Ms. Campbell said that she did not see a need to pursue a diversion rate of 0.09 cfs instead of the permitted rate of 0.07 cfs. I told Ms. Campbell that if she did not want to pursue the licensing amendment that she did not need to return anything to the office. I would log our conversation in a memo and issue a license for what I could based on the current permit.
