RE: Water Right Permit No(s). 78-7396 & 78-12159

Dear Permit Holder(s):

The department acknowledges receipt of the proof of beneficial use from for the above referenced permits. Also enclosed is an order reinstating permit 78-12159, advancing the priority date since proof was submitted after the proof due date.

The Department of Water Resources is reviewing the permit(s) referenced above prior to issuing a water right license for each permit. By issuing a license, the department confirms the extent of development that has been established in compliance with the terms of the permit.

The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the purpose of use was developed differently than described on your permit. Your domestic use includes a small amount of lawn and landscaping irrigation, which resulted in a larger diversion rate for domestic purposes than was originally authorized. In addition, a separate irrigation use outside of that described under domestic use was not developed.

The enclosed application for amendment form depicts the elements of each water right as they will appear on the licenses when issued. Please review the amendment forms carefully. If you concur with the information presented, please sign the forms and return them with a \$100.00 filing fee within 14 days (\$50.00 filing fee for 78-7396 and \$50.00 filing fee for 78-12159).

If you have any questions, please call me at (208) 287-4916.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig L. Saxton". The signature is fluid and cursive, with a prominent loop at the end.
