Cherie,

I had a chance to speak with my supervisor today concerning the water service area boundary. In this case he is going to allow an exception to the completion of our digital data release form. He has requested that I send the shapefile to you in order to allow you to update your database.

I have attached a zip file that contains the shapefile for the boundary area.

If you have any questions, feel free to contact me.

Thank you,

Derek Bates

Subject: RE: City of Idaho Falls Digital Data

Derek,

Thank you for your time regarding this matter. The Department would like to update the water service boundary area for the city of Idaho Falls as a courtesy since the boundary stored in our database is out of date. Since the updated boundary is not required at this time, I would like to request a waiver from having to sign the release.

The shapefile does become part of the Department's database and with any water right record, the information is available to the public. If you cannot grant a waiver, the Department will maintain the old water service boundary in our database until a new shapefile is submitted in connection with a new application for permit or an application for transfer. In both those instances a map is required. Thank you again for your time.

Sincerely,

10/19/2009

Cherie,

Attached is a copy of the City of Idaho Falls Digital Data Release Form. Please complete the form and return it to me at your convenience. Please list that you are requesting a shapefile of the water service boundary area.

Thank you,
