Re: Water Right Permit No. 65-22894

Dear Ms. Hartzell

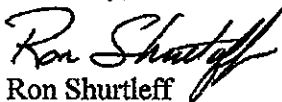

As per our phone conversation regarding your permit to appropriate water No. 65-22894 and specifically condition No. 5 requiring installation of a lockable device approved by the department. I agree to waive this condition at the present time but reserve the ability to invoke the condition if necessary in the future to achieve suitable control of the diversion.

This junior water right will not be served by natural flow during part of each irrigation season, typically after June 15th. As per condition No. 6 of your permit, you may rent stored water from the Payette River Rental Pool to allow continued all season usage.

Prior to June 15th of each year arrangement for stored water rental may be made through this office. Accurate diversion records should be maintained and reported to the Watermaster of Water District No. 65 at the close of each season.

If you have any further questions, please contact me at 208-642-4465.

Sincerely,

Ron Shurtleff
