RE: Notice of Change in Water Right Ownership for WR Nos. 93-7011 and 93-7014

Dear Mr. Kerns:

The Department of Water Resources processed the above mentioned notice on Dec. 22, 1999. The department has since received another notice of change in water right ownership for water right 93-7011. Upon review of the new notice and further review of your notice, it appears that a mistake was made when the entire water right was placed in your name. The exceptions listed on your deed should have resulted in a split of the water right. As a result of this review, water right 93-7011 has been split into 93-7065 (Kerr), 93-7066 (Kerns), and 93-7067 (Wilson/Hopson). I have enclosed a copy of the water right reports showing the split portions of each right.

I also reviewed your ownership change request for 93-7014 and found that the deed you submitted did not cover this water right. I am restoring the owner of the water right to the previous owner of record. I have enclosed a copy of the water right report and a copy of the deed submitted for reference. If you believe this is in error, or you have another deed which conveyed the property covered by this water right, please submit a copy for review.

Please note that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov.

No further action is necessary if you no longer own either property as listed on the deeds submitted with your ownership change. Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

Emalee Rushing
Office Services Supervisor
