

MEMORANDUM

Date: February 25, 2005
To: Water Right File 37-8169
From: eretelle
Re: phone call

I heard from Lyn Harman of Big Wood Canal co. today regarding my February 2005 letter requesting flow measurements. He indicated that the flows are closer to 305cfs than the measured 184 cfs from the 1988 field exam. I requested he send flow records they have in print so a decision can be based on that. The measurements are taken at a gauge near the power generation PoU and should only vary by + or - 5% according to Mr. Harman.
