Date Filed: 6/29/2009

Place of Use: irrigation of 5
acres and other uses within parts
of S10, T11N, R12E

Remark: Application proposes
to use an existing well to divert
0.15 cfs for the irrigation of 5
acres and diversion to storage
and 0.1 af for aesthetic and fire
protection storage in two small
existing ponds. Location of the
well is approximately 8 3/4 miles
northwest of Stanley on the east
side of Highway 21. This applica-
tion proposes the diversion and
use of water tributary to a feder-
ally designated Wild & Scenic
River. The decreed minimum
stream flow rights for the federal
Wild & Scenic Rivers are subordi-
nate to certain categories of water
use and to specific amounts of
water use established after the
minimum stream flow. The water
use proposed in this application
will benefit from the subordina-
tion provision because it is for
irrigation purposes and the diver-
sion rate and acres will be
applied to the subordination
amounts specified in the decree
for the applicable Salmon Wild &
Scenic River. **Permit will be
subject to all prior water rights.
