RE: Public Waters Appropriation Permit Number 95-433

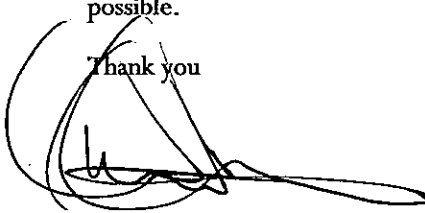

Dear Ms. Gibson

In reference to Permit Number 95-433, please find enclosed an executed Statement of Competition and a personal check in the amount of \$50.00 as payment for the license examination fee as required.

This work has been completed as of September 23, 2009 within the time limits set forth in the approved Request for Extension of Time dated January 7, 2009.

I believe this submission completes all requirements and conditions supporting the issuance of license. However, in the event any additional steps are required on my part to finalize the license process, please let us know as soon as possible.

Thank you

Sincerely,
Dan Currie
