

MEMORANDUM

Date: October 01, 2009
To: Water Right File 11-7491
From: cpadilla
Re: Amendment of Permit

The permit holder submitted an amendment of permit on 12/18/2006 to change the point of diversion, add a point of diversion, and change the place of use. The amendment would make the point of diversion and place of use identical for permits 11-7491 and 11-7481.

A protest was filed in response to the notice that was advertised in the paper. To resolve the protest, the applicant modified the amendment to exclude land from the place of use that belongs to the BLM. A final amendment approval document was never issued.

On March 29, 2007, as second amendment was filed that added a point of diversion. In the amendment, the prior amendment changes were reiterated. This amendment was advertised and protested however the protest was later withdrawn.

Sams Hollow is now under new ownership and is no longer represented by Randy Budge. The new owners submitted their change in address form and the database has been updated. They also withdrew the first amendment that was filed so the department may approve the 2nd amendment.
