OTHER RIGHTS, ADDITIONAL INFORMATION

This right filed to provide an exchange of direct flows for flows stored downstream in Lower Macks Creek Reservoir. Compensatory outflows are to be released at Lower Macks Ck. Dam. Irrigation storage is not shown because all applicable storage is authorized under 57-07525 and 57-07583. No additional storage authorized. Exchanges will only occur when decreed rights on same lands are not being delivered and Watermaster is still on duty.

Overlapping rights are: 57-00262 and 57-02085, Macks Ck. decreed rights diverted in Sec 22, and 57-07454 and 57-07473, stored flow in Upper Macks Creek Res. in SWNW Sec. 23. (Upper Macks Creek Res. holds a very small amount of water which is usually depleted before the Watermaster goes off duty.) 57-00252, 57-01070 and 57-02296 are rights decreed from Reynolds Creek, diverted in Sections 24 and 25 on EAST side. These lands may also be able to be irrigated from Reynolds Creek Res. There is no outlet works at this time for compensatory outflows from Reynolds Creek Res.; all exchange flows will be delivered from Lower Macks Creek Reservoir.
