RE: PERMIT NO. 63-31183

Dear Mr. Murray:

The Department acknowledges receipt of documentation that you have provided to substantiate compliance to condition 9 of Permit 63-31183. I have reviewed the documents and found that they satisfy the requirement for the annual analysis and report for 2008. I have sent the permit file and these additions to the imaging group so that necessary document scanning can be done.

This permit will remain active until 2012 or until the Department accepts a final Beneficial Use Field Exam report. Although Mr. Terry Scanlan has provided the Department a copy of his draft field exam report for the permit, to my knowledge an acceptable volume for this permit has not yet been resolved to the satisfaction of IDWR's Water Allocation Bureau Chief. Discussions of this permit may continue through this year, and if they do the Department will expect to receive an annual analysis and report for calendar year 2009, sometime in the first quarter of 2010.

Don't hesitate to contact me with questions.
Sincerely,

Michele D. Edl
Associate Engineer
