Subject: Approved Transfer 75263

Dear John,

Transfer 75263 for the City of Boise was recently approved September 21, 2009. I reviewed the approval document and found a couple of minor discrepancies that should be corrected. On page 2, water right 63-7064B is not indicated for change.

Also, the transfer conditions for each right limited them to a combined flow rate of 53.37 cfs, however the IDWR database shows each right limited to a combined flow rate of 51.07 cfs, which is correct. This amount (51.07 cfs) is based on a condition decreed to water right 63-8435 that limited water rights 63-3013, 63-3014, 63-7047, 63-7055A and 63-8435 to a combined flow rate of 13.54 cfs and a condition decreed to water rights 63-7005B, 63-7042B, 63-7053, 63-7055C, 63-7055D, 63-7064A, 63-7064B, 63-7078B, 63-7755B, 63-8130B, 63-9243 and 63-9359 that limited them to a combined flow rate of 37.53 cfs.

Please let me know if there are any questions. Thanks John.

Sincerely,

A handwritten signature in black ink, appearing to read "Lori Graves", is written in a cursive style.
