Idaho Department of Water Resources
Jean Robertson
1341 Fillmore St. Ste. 200
Twin Falls, Idaho 83301-3380

Dear Jean,

Multiple changes have taken place on the East Fork 13 Baker Diversion since the application for transfer #75255 was submitted. Among the changes a change of design was the most significant. This design change is such that a point of diversion transfer is no longer necessary. The project is scheduled for implementation in July of 2010.

Based on this we respectfully request that the application for transfer is withdrawn. Additionally we respectfully request that the fee of \$290.00 be returned to the Custer Soil and Water Conservation District, the entity that provided the check for this transfer.

As always, we appreciate the assistance of the Twin Falls IDWR office in this and several ongoing projects for which you have been very helpful. Thank you for your continued assistance in our conservation projects.

Sincerely,

Karma Bragg, Project Manager Custer SWCD

Wayne Baker, Water User for Application #75255
