Idaho Department of Water Resources
Southern/Eastern Region
1541 Fillmore St. Suite 200
Twin Falls, ID 83301

To Whom It May Concern:

Please find attached the water rights transfer for Wayne Baker in the East Fork of the Salmon River. This transfer is part of a conservation project administered by the Custer Soil and Water Conservation District to improve anadromous fish passage in the East Fork. The new structure will be located in an area that necessitates a transfer even though the distances between the new point of diversion and the existing point of diversion are very close.

This application was prepared in our behalf by SPF Water Engineering, however, please direct any questions related to this transfer to the Custer Soil and Water Conservation District at 208-879-4428 or Wayne Baker at 208-838-2440.

This project is slated for implementation in 2009, and the completion of the transfer is critical to the implementation of the project and retention of funds to do so. A timely advertisement of transfer would be greatly appreciated.

Sincerely,

Karma Bragg, Project Manager
Custer Soil and Water Conservation District
