RE: Water Right Permit No. 95-08057

Dear Permit Holder(s):

The Idaho Department of Water Resources (IDWR) is reviewing Permit 95-0857 (East Greenacres Irrigation District) prior to issuing a water right license. By issuing a license, IDWR confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of Permit 95-08057 have been developed differently than described on the Permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, the permit must be amended to depict water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

☐ Point(s) of Diversion

☐ Place(s) of Use

☒ Other (Amend Irrigation, Domestic, and Industrial to Municipal)

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with within 14 days. Ron Wilson, manager of the East Greenacres Irrigation District, has confirmed that the \$50.00 filing fee will be paid by the District.

Please contact me at (208) 762.2800 / 2816 or via e-mail at [Shaun.Maxey@idwr.idaho.gov](mailto:Shaun.Maxey@idwr.idaho.gov) if you have any questions.

Respectfully,

Shaun M. Maxey  
Senior Water Resources Agent  
Idaho Department of Water Resources, Northern Region
