DEPARTMENT OF  
WATER RESOURCES

Dear Mrs. Rushing,

I am writing you to request that the lockable diversion and measuring device be waved off of the permit : 67-14475 for the following reasons; first is that there was no protest to the water right being filed upon, second , I am the last user on beaver creek so consequently I would not affect anyone below me, and third is that I believe that the water in beaver creek is actually waste water from the middle valley ditch company wich I already have written permission to use, and finally the district 67 water master did not see a problem with it.

Thank you for your time and if you have any more questions please contact me at 208-355-3343 or my cell is 208-550-0153

sincerely,

A handwritten signature in black ink, appearing to read "Jesse Whitener", with a stylized flourish at the end.

Jesse Whitener, whitener ranch
