Brian,

I am meeting with NSCC tomorrow. I still need their signature and AFRD #2's. Should have everything wrapped up and over to Bill by early next week.

Travis

Hi Travis.

I received a call from the IDWR. They are waiting for an agreement for conditions for the SWID permit to pump water from their new pumping plant. They told me that you were supposedly writing something up. Do I have the correct information and is there anything I can help with?

Thank you.
