I do not know about Amal protest. The others were resolved and should be on file.

Travis is working on the agreement and it is in semi final form awaiting the word from his clients.

Bill

Hi Bill.

I received a call from the IDWR informing me that Travis Thompson has not written an agreement for conditions for SWID to pump water out of the new pumping station. I sent Travis an email asking him if I can help.

Also, an SF-5 has not been filed for the transfer adding the new POD to the SWID 1-23 water right. I have contacted Doug Jones, IDWR, Twin, for information. I understand that IGWA, BLM, and Amalgamated Sugar all filed protests on the SWID surface water right.

If you know the status of either of these items would you please let me know if there is something I can do?

Thank you.

Brian
