

## MEMORANDUM

**Date:** August 31, 2009  
**To:** Water Right File 36-8538  
**From:** Sandy Hemenway  
**Re:** Additional Information

---

Contacted via phone Wayne Hawkins (original owner) at (208) 280-4382/324-5660. His address is 302 S. 230 W., Jerome, ID 83338. He confirmed information about the 2 wells (well logs for the west well A0004660, and east well A0004661), pump size (each are StaRite 7.5 Hp submersible), pumps are set at 173 ft; size of discharge pipe (3 inch reducing to 2 inch, then flow through the totalizer flowmeter), Wayne faxed a copy of the set up for the facility, barns, and lagoon. Wayne stated that the house to the south is also on the same well, but is owned by someone else now. Wayne stated that the lagoon has a manure separator with a floating pump, and the effluent is pumped through the 70-acre pivot for 2 - 3 days per year (through a land application permit). All irrigation is conducted through the same 70-acre pivot, but the source of water is through Twin Falls North Side Land & Water Co/Northside Canal Co (shares).
