Subject: RE: Transfer 73788, Water right 61-7283A

Lori:

A response has not been received. The application is overdue for an order rejecting it based on the March letter.

He should request more time as soon as possible to avoid that order. This could include information that SPF has been hired to represent him in this matter.

The basis problem is reasonable information showing it is practically and economically feasible in a 5 year window to drill multiple wells to move this limited irrigation around within a much larger place of use.

Steve

Steve,

You sent a letter dated March 23, 2009 to Mike Eiseman asking for additional information regarding transfer 73788. Did Mike respond to your letter? If not, can he seek additional time to respond? Thanks Steve.
