Pam:

This transfer was filed quite a while ago and is in the stack of ones your section asked for to do initial processing. Has it been assigned for processing? If so, who is working on it and what's up?

Applicant called me to see where things are at. We need to move this one along. If it's not being worked on at SO, I can retrieve it and have it expedited at Western.

Please let me know status.

Thx

Steve
