PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 95-9348 and 95-3949

Dear Permit Holder:

The department acknowledges receipt of the Proof of Beneficial Use form ("proof") and the license examination fee for each of the above-referenced water right permits. Enclosed is an order that reinstates each permit, since proof and the license examination fee were submitted after the proof deadline. Please note that the priority date for each permit listed above has been advanced to June 27, 2006, as provided in Section 42-218a(2), Idaho Code.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. Therefore, you may wish to be in compliance before the department conducts the field examination to avoid any problems in licensing your permit.

One of the conditions of each permit requires that you install a lockable device in a manner that will provide the watermaster suitable control of the diversion. Please be aware that your failure to have the device installed and operable at the time the department conducts the field examination may jeopardize the validity of the permit. You may request, in writing, a waiver of the condition by the department describing the reasons for the request.

If you have any questions concerning the field examination, please contact the Northern Regional Office in Coeur d'Alene at 208-762-2800.

Sincerely,

Emalee Rushing
Office Services Supervisor
