**Subject:** Whitener Ranching 67-14475 Permit

Hello,

I'm Brandi Horton, Watermaster for District 67. I recieved a letter from Jesse Whitener of Whitener Ranching concerning his permit (67-14475) for Beaver Creek water in Midvale. He has requested that the requirement of a lockable diversion and measuring device be waived. After discussing the situation with Mr. Whitener and knowing the history of the area, the permit, and the process by which it was aquired...I have no problem with waiving the requirement of the lockable and measuring devices so long as the permit is conditioned so that if there is a change in the future (ownership, water dispute, water source conditions, etc.) the watermaster may require the lockable and measuring devices be installed at a later date. If you have any questions please call or email me.

Thanks!

Brandi Horton  
Watermaster-District 67  
2574 School Rd.
