

MEMORANDUM

Date: February 9, 2009
To: Transfer 75360 File
From: Jeanie Robertson
Re: Evaluation of Sufficiency of Information Submitted

This transfer proposes to add diversion points to three water rights currently diverting a total of 1.92 cfs for municipal use by the City of Richfield. There are three existing wells, one on each of the rights, and another well is proposed to be drilled. (Additional water for that well is being applied for under 37-22431.) 37-4084 was for well #1, 37-4085 was for well #2, and 37-8402 was for well #3. 37-4084 was decreed in the NWNWNW of Section 25, T04S, R19E. I noticed on their map that this well (known as well #1) is in the SWNWNW. This also corresponds to the WMIS point so I will use this opportunity to correct the location of well #1. The rights are located within WD130 so watermaster comments will be sought and they may be subject to measuring and reporting. Location of the proposed well is in the NWSWSW of Section 24, T04S, R19E, within a parcel bordered by 3rd St., N Main St., and W Blaine Ave. in the north east of the city limits.

- **Authority to File:**
The application was signed and filed by the Mayor of Richfield, Charles E Buttane. Application indicated there was no lien holder on the property.
- **Water Right Validity:**
Rights 37-8402 and 37-8405 were decreed in the SRBA on 12/11/2002. Right 37-8402 was licensed on 4/20/1995. All are for municipal use and have apparently been in use and now another well is needed to meet the demands of the growing town.
- **Injury to Other Water Rights:**
None anticipated. The rights are located within WD130 so watermaster comments will be sought and the rights may be subject to measuring and reporting.
- **Enlargement of Use:**
None anticipated. The wells are being tied together for back-up purposes.
- **Local Public Interest:**
No negative impacts anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed municipal use is recognized as a beneficial use of water.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Re: Legal Notice Remarks

Transfer proposes to tie together three existing wells and one new well, to be drilled, and add points of diversion to three water rights currently diverting a total of 1.92 cfs for municipal use by the City of Richfield. (An application for permit has also been filed on the proposed well for an additional 2.18 cfs for municipal use.) Location of the proposed well is in the NWSWSW of Section 24, T04S, R19E, within a parcel bordered by 3rd. Street, N Main Street, and W Blaine Avenue in the north east of the city limits.
