Att: Shelley Keen, Manager

RE: Licenses # 95-8976 Issuance of License

Dear Shelley,

I received the copies of the lapse notice and the proof due notice sent to us in 2003. I would like to state my case in writing a quick letter to your department. We would have definitely sent the needed information to you if we would have been contacted, as we had it in our files.

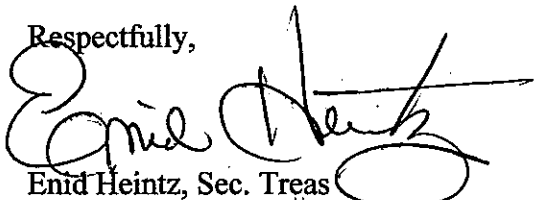

We had been in close contact with Brian Patton as early as 1999. A revision was made in our Project Loan in 2001. A number of letters had been sent to Debbie Allen also. We had also spoken by phone a number of times. I will enclose a copy of a couple of letters showing our current address at that time.

Looking at the letter head for The Department of Water Resources and the phone number, we would not have realized the departments were different, so when the address was changed in 2001, I would assume all would be aware of this and that address would have certainly been available to you in 2003 when the notices were sent to us. .

A Water Right License date is very important and I would ask that the Priority Date be changed back to at least 2001. Our address was changed in 2001. Even a date of 2003 would be better than 2009. The well project was completed in 1999 and has been in operation every since that date. We ask you to reconsider the Priority Date, as we feel that we are not totally to blame for the misunderstanding.

Thank you.

Respectfully,

Enid Heintz, Sec. Treas

ATTN: Mr. Gary Gaffney, P.E.
SUBJ: Revised O&M manual
REF: Nebel's Addition Water & Sewer Association

Dear Gary:

Enclosed please find a ~~revised operation and maintenance manual~~ for the Nebel's addition water and sewer systems. We have revised the manual to reflect the OSHA requirements for entering and existing the meter manhole. As you are aware the meter manhole is a confined space. The owner/operator is also listed on the emergency contract list within the manual. Please contact me at our Newport office if you have any questions or need any additional information.

Sincerely,

JAMES A SEWELL & ASSOCIATES

Att: Debbie Allen

Debbie:

I am treasurer of the Nebels Addition Water and Sewer Association and there is an issue I would like to address. We have a water project loan with the state of Idaho and have made several payments in the last couple of years. Some of the owners of lots and homes paid money up front and that was sent to the state as we received it. We now have only about half of the owners paying on a ten year scale. I had talked with Brian Patton and he said it would be ok to pay the balance over the remaining 8 years of the contract. Could you please refigure the payment schedule and send it to me, so I could continue to make a payment in Feb.02 or sooner. Also please note the change in mailing address. Thanks.
