Subject: Mahoney Application for Permit...
Attachments: img-817101256.pdf; img-817101305.pdf

Hi Karma,

Attached is a copy of the application which you may want to have amended to **0.15 cfs for irrigation**. (First amount under item #4.) Mr. Mahoney could cross out the other amount and put the new one, initial and date. Perhaps an accompanying email from him stating he wanted to amend the App for Permit would be appropriate too.

Then the second attachment is the requirements that need to be addressed in order to process permits in the Wild & Scenic Area. Please go through the items and address each one with some sort of comment, either already submitted, not applicable or something like that, along with comments from the DEQ, or they can email me something themselves if they want. This will speed up processing and we can get it to advertising soon. Call or email if you have any questions!

Thanks, Jeanie
