Re Application for Permit no. 67-15012

Dear William Sorenson and Elizabeth Bramble:

This letter is in regard to the application you submitted on May 4, 2009, for a water right for domestic use and irrigation of 1 acre from a well. The application has been assigned to me to review and processing. The application is incomplete and I cannot continue to process the application until the omissions are corrected. I left a phone message about this matter on your answering machine on July 23, 2009, regarding this application and asked for a return call, but have not received one.

A copy of your application is included here for your reference. Specifically, the following items in the application must be completed on the original application.

Item # 6(a) – the description of the proposed diverting works, such as the size of the pump and the delivery system (sprinkler pipe, flood irrigation) must be included.

Item # 7 –this item was left blank, however, there must be a # of years needed to complete. The application states that the minimum is 1 year.

Item # 10 – this item requires a response from the applicant regarding whether there are or are not other overlapping rights, including irrigation or canal company rights.

Additionally, your well was drilled in 2003 as a domestic well and not an irrigation well. For the well to be used for irrigation in excess of the ½ - acre allowed under a domestic use, an additional fee is required. The drilling upgrade fee for a well drilled in 2003 is \$125. Please remit this amount.

You may seek additional time to provide the information by making a written request to interrupt processing for up to six months. The information requested in this letter or the request for more time to seek the information must be received by August 28, 2009. The application will be voided without a timely written reply. Please contact me as soon as possible at 208-334-2190 to schedule an appointment. Thank you for your attention to this matter.

Sincerely,

Vicky Music
Sr. Water Resource Agent
