RE: DEQ comments on water right application 71-10929

Dear Messrs. Lee and Brown:

The Idaho Department of Environmental Quality (Department) reviewed your water rights application, as well as the associated existing water quality information near your proposed project site identified in Application 71-10929.

The Department has no opposition to the granting of this right if it is developed according to the information provided. We do encourage you to ensure any intake pumps installed are properly screened according to local fish and game specifications.

We have no other comments at this time. Additionally, the Department believes this letter is sufficient to allow the Department of Water Resources to complete their review of your water rights application. Thank you for the opportunity to review your application.

Please do not hesitate to contact me at 208.528.2650 for any additional information we may be able to provide.

Sincerely,

Troy Saffle
Regional Water Quality Manager
Idaho Falls Regional Office
