RE: App For Transfer 72954, Don Aardema

Dear Gary;

The data we have so far regarding irrigation on this property (the old Lane Franco place) does not make sense. There are NO canal shares appurtenant to the land under the groundwater rights on this farm, but the pumping records for their well do not show nearly enough usage to irrigate the 523 acres. All the land is covered with sprinklers, so I presume that none of it is dry farmed. They do have wastewater in their dairy lagoons, but it would take an awful lot of that to properly water this place.

Processing of this application cannot continue until we find out exactly how their irrigation system operates. If they are not willing to provide this information, the application will be returned to you without further action; the proposed dairy expansion will not be allowed. Please respond by May 29.

Regards,

James E. Stanton
Sr. Water Resource Agent

cc: Don Aardema
