Attachments: DOC090908.pdf

Keith,

I'm a little slow forwarding this to you.

Karen hustled to find these drawings and they may be sufficient to prove Sylte Development LLC's connection to the North Kootenai Water District.

Welch-Comer should have the reinstatement of lapsed Sylte Developement permit (95-9129) by now. The order gives them a permit with a priority date penalty. Welch Comer's June 13, 2008 submittals on behalf of NKWD were more than 60 days after the proof due date. They were too late to keep the original priority and so the priority was penalized. These drawings or any other submittals after that June 13 submittal had NO impact.

Although these drawings didn't help the 95-9129 priority, they may help the overall NKWD picture.

Michele,

Here are the record drawings for the connection to the system. Let me know if you need anything else.

Thanks,

Karen Osterdock, E.I.T.
