Re: Water Right Application 63-32162 and Well Drilling Fee Upgrade

Dear Mr.Chance:

Your recent water right application has been assigned to me for review and processing. It proposes ground water use from a well. All wells drilled in Idaho after June 30, 1987, require well drilling permits.

According to the records of Idaho Department of Water Resources (IDWR), your well was drilled in 2007 under a \$75 domestic well drilling permit. A \$75 drilling permit covers a well that does not require water right approval from IDWR. This is typically a single-family domestic well. The well drilling fee for a well requiring a water right is \$200 instead of \$75. IDWR must collect the unpaid balance of \$125 for a well drilled under those circumstances.

I see from the file notes that you spoke with Angie Grimm, Sr. Water Resource Agent, when you filed the application and she informed you of the upgrade fee. It appears from the notes you intend to pay the fee during the licensing process so this letter just reiterates that IDWR will continue to process the application but it will not be licensed until the fee is paid.

No action is required. If you have questions, you can contact me at 208-334-2190.

Sincerely,

Vicky Music
Sr. Water Resource Agent

NAME OF PARTY JOE CHANCE

EMPLOYEE ANGIE GRIMM

RE: NEW APP FOR PERMIT 63-33162 AND APP 63-32940.

JOE CHANCE CAME IN DURING MY OFFICE DAY TO SUBMIT APPLICATION FOR PERMIT 63-33162. THIS APP IS FOR IRRIGATION OF HIS 10 ACRE LOT WITH SOME LIVESTOCK/STOCKWATER USE. ARCHMAP TAXLOT DATA CONFIRMS JOE CHANCE IS THE OWNER OF LOT 3 BLK 1 COLTON RANCH SUB. CHANCE PURCHASED THE PROPERTY FROM THE BANK WHICH HE CLAIMS FORECLOSED ON THE PREVIOUS OWNER RICHARD ALLEN. ALLEN APPLIED FOR PERMIT 63-32940 FOR 10 ACRES OF IRRIGATION ON LOT 3 BLK 1. DUE TO THE NATURE OF THE SITUATION CHANCE STATED ALLEN WOULD NOT BE WILLING TO ASSIGN THE EXISTING APPLICATION (63-32940) SO CHANCE FILED HIS OWN. IT APPEARS APPLICATION 63-32940 MAY BE VOIDED WITH CONFIRMATION / NOTIFICATION TO ALLEN BASED ON CHANCE'S STATEMENTS.

Also, I INFORMED CHANCE HE WILL BE REQUIRED TO PAY \$125.00 FOR A WELL DRILLING PERMIT UPGRADE FEE. CHANCE SAID HE WISHED TO WAIT TO PAY THIS FEE DURING THE LICENSING PROCESS VS. NOW (DURING THE PERMIT PROCESSING). HE ASKED IF HE WOULD HAVE TO PAY MORE LATER (MORE THAN \$125.00) IF HE WAITED TO PAY AND I SAID NO NOT CONSIDERING THE FACT IF DRILLING PERMIT FEES INCREASE THE COST MAY AS WELL(?).

Owner's Signature: SEE ATTACHEDDate: 12/5/06

CONDITIONS FOR USE OF START CARD:

1. This permit authorizes the construction or modification of one domestic well for a single-family residence. No additional residences, businesses, or dwellings may be connected to this well without a valid water right. Limited to irrigation of 1/2 acre lawn/garden and 13,000 gpd.
2. This form must be complete, including the prepaid tag number and signature of the driller. The owner should sign the start card after reviewing these conditions. Mailing must take place no less than 72 hours prior to construction (Dept. address below), hand delivered or faxed to the Dept. prior to commencing construction. The start construction date shall be no more than 10 days after the Department receives the permit. An incomplete form will not be considered a valid permit to drill.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare. All wells must be drilled a minimum distance of 100' from a drain field. Domestic wells must be drilled a minimum of 50' from a septic tank.
4. Only Well Drillers licensed in Idaho may use a Start Card for construction of a well. The driller shall maintain a copy of the Start Card and the well I.D. tag at the drilling site during construction.
5. This drilling permit does not authorize trespass on the land of another party.
6. This drilling permit does not constitute other local, county, state or federal approvals, which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85 F. or greater is encountered, well construction shall cease and the well driller shall contact the Department immediately.
9. Idaho Code, S 55-2201 - 55-2210 requires the applicant and/or his contractors to contact "Digline" (Digline is a one-call center for utility notification) not less than 2 working days prior to the start of any excavation for this project. The "Digline" Number for your area is 1-800-342-1585.
10. The stainless steel I. D. tag must be welded to the well casing upon completing the well and must remain permanently attached above ground level for the life of the well. Other tags may be added following a repair or modification of the well. The well driller is responsible for permanently attaching the I.D. tag to the casing upon completing the well. The well tag shall be attached by welding at least 3 sides or using Four (4) stainless steel, closed-end pop rivets.
11. A start card is not valid for drilling in Areas of Drilling Concern, Critical Groundwater Areas, Groundwater Management Areas or Areas Identified by the Department as Contaminated.
12. The possession of a well tag does not authorize construction of a well.
13. Any well being replaced by a new well, shall be properly abandoned by the well driller prior to removing the drilling equipment, unless otherwise authorized by the department.

Re: Application for Water Permit

To whom it may concern:

I am submitting my water permit application and this letter for your review. I am requesting that I have five years to complete the completion of works. The reason for the request of five years is I live on a ten acre lot in a subdivision that contains a total of nine (9) ten acre lots. The problem I am encountering is that all the lots are either bank owned or the lot owners are in default and soon to be bank owned. I am the only person that legally resides in this subdivision and owns a completed residence.

I am currently trying to get control of the Board of Directors of the home owners association. The current board of directors and association is dysfunctional and I do not believe they have any intention on doing anything for this subdivision as previously mentioned they have lost or are about to lose there property. With that said it might take me some time.

I currently have a well that I am using for my domestic use, irrigation, landscaping, lawn, garden and livestock watering so I am asking for the permit so that I can be in compliance. I am proposing to drill another well so I can irrigate another section of my ten acres. I will be watering livestock and cattle, thus the reason for extention of time of five years to complete. I don't believe it will take five years, but I do not want to underestimate my time for completion.

I hope you accept my application and this letter for my water permit.

Respectfully submitted,

Joe Chance

Owner's Signature: _____ Date: 3/16/07

CONDITIONS FOR USE OF START CARD:

- This permit authorizes the construction or modification of one domestic well for a single-family residence. No additional residences, businesses, or dwellings may be connected to this well without a valid water right. Limited to irrigation of 1/2 acre lawn/garden and 13,000 gpd.
- This form must be complete, including the prepaid tag number and signature of the driller. The owner should sign the start card after reviewing these conditions. Mailing must take place no less than 72 hours prior to construction (Dept. address below), hand delivered or faxed to the Dept. prior to commencing construction. The start construction date shall be no more than 10 days after the Department receives the permit. An incomplete form will not be considered a valid permit to drill.
- This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare. All wells must be drilled a minimum distance of 100' from a drain field. Domestic wells must be drilled a minimum of 50' from a septic tank.
- Only Well Drillers licensed in Idaho may use a Start Card for construction of a well. The driller shall maintain a copy of the Start Card and the well I.D. tag at the drilling site during construction.
- This drilling permit does not authorize trespass on the land of another party.
- This drilling permit does not constitute other local, county, state or federal approvals, which may be required for construction of a well.
- This drilling permit does not represent a right to divert and use the water of the State of Idaho.
- If a bottom hole temperature of 85 F. or greater is encountered, well construction shall cease and the well driller shall contact the Department immediately.
- Idaho Code, S 55-2201 - 55-2210 requires the applicant and/or his contractors to contact "Digline" (Digline is a one-call center for utility notification) not less than 2 working days prior to the start of any excavation for this project. The "Digline" Number for your area is 1-800-342-1585.
- The stainless steel I. D. tag must be welded to the well casing upon completing the well and must remain permanently attached above ground level for the life of the well. Other tags may be added following a repair or modification of the well. The well driller is responsible for permanently attaching the I.D. tag to the casing upon completing the well. The well tag shall be attached by welding at least 3 sides or using Four (4) stainless steel, closed-end pop rivets.
- A start card is not valid for drilling in Areas of Drilling Concern, Critical Groundwater Areas, Groundwater Management Areas or Areas Identified by the Department as Contaminated.
- The possession of a well tag does not authorize construction of a well.
- Any well being replaced by a new well, shall be properly abandoned by the well driller prior to removing the drilling equipment, unless otherwise authorized by the department.
