PROOF ACKNOWLEDGMENT LETTER

Re: Permit No. 63-32648

Dear Permit Holder:

The Department acknowledges receipt of a Statement of Completion for proof of beneficial use and license examination fee submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

During my review of your proof and water right permit, I found that condition no. 4 of this permit states:

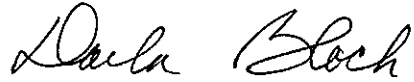

"The right holder shall install a measuring device that can be used to determine the instantaneous rate of flow of water through the system, or the right holder shall provide to the department a flow rate measurement or computation made by a certified water right examiner in accordance with actual system design and operation."

I recommend that this condition be complied with immediately and prior to the field examination. Enclosed is a copy of this permit for your information. If you feel this requirement is unnecessary you may request in writing to the Department that the requirement be waived. Additionally, you must contact the watermaster about his need for this requirement. If he agrees that the measurement device requirement is unnecessary, request that he/she provide the Department with written agreement that the requirement can be waived at this time. Upon receipt of your request and his acknowledgement the Department will issue an order waiving the requirement at this time.

Be advised that Section 42-248, Idaho Code, requires you as the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office. These forms are available on the Department's website at: www.idwr.idaho.gov

Should you have any questions concerning the permit or the waiver of the measuring device, you may contact me at (208) 287-4945. If you have questions about the field examination, please contact the Western Regional Office in Boise at (208) 334-2190.

Sincerely,
