Re: Application for Permit No. 92-10033

Dear Mr. Morehouse:

This letter is to answer your inquiry as to the status of your water right application.

The department received a letter from the Idaho Department of Fish & Game, copy of which is attached, requesting a flow measuring device be required for your application that would measure the bypass flows in Carlin Creek. The Department of Water Resources has not had a chance to field review the site to determine if such a device is feasible or should be required.

You will be notified once the department has determined whether or not a measuring device should be required. If you have any questions, feel free to contact me at this office.

Sincerely,

Keith E. Franklin
Senior Water Resources Agent
