RE: Application for Permit # 65-22942 Basso, Warm Springs Creek

Dear Mr. Westra:

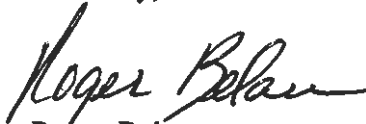

Attached please find a withdrawal of protest for the subject amended application originally filed 2/22/05 by Donald @ Patricia Basso.

The amended application includes a storage component(tank) to the use, and diversion from the unnamed stream will be curtailed from 6/15 to 11/1 each season.

Our protest included six names, all with water rights on the lower end of Warm Springs Creek. We remain concerned with new applications as there simply is not enough water to satisfy current users, especially in drought years when there is a limited supply of water from the creek.

Thanks to you and your staff for your efforts, patience, and understanding in this matter.

Sincerely,

Roger Belau
