RE: Pumping location at 10S14E0630

Stan,

Review has been completed in field and as an Idaho Power Agricultural Representative, I verify that a pumping station exists at 951 East 4000 North in Buhl, Idaho. Electrical service is provided to the 40 HP turbine pump on the north side of the road at service point 10S14E0630 with meter number 1986658 in place on date of this letter. Also located at the site is service to a pivot, 10S14E06P1, with meter number 02303851.

The three enclosed maps identify the location of the pumping station and power availability.

Sincerely,

Gerald Orthel
Idaho Power Ag Rep
