Re: Transfer Review

The purpose of this transfer is to correct the POU that was incorrectly data entered. There was a transfer (T4139) approved on September 2, 1993 with the POU listed as T03N R40E Sec 21 NENW of 33 acres. However, when 25-57B was claimed in the SRBA the POU was listed as T03N R40E Sec 21 NESW of 33 acres. It was recommended and decreed on September 30, 2005 as NESW. This error was found while processing a change of ownership, changing from Foster Co. to Foster Land and Cattle. The ownership change was processed after notifying the applicant that a transfer would be required.

The fee for this transfer was based on the 33 acres transferred at an inch to the acre which calculates to 0.66 cfs. The fee collected was \$250.

Authority of File:

IDWR records show the applicant the current and have supplied a recorded warranty deed as proof of ownership. The county tax lot information verifies ownership by the applicant.

Injury to Other Water Rights:

No issue identified. There will be no physical changes with this transfer. The physical POU will be the same before and after the transfer is processed. This transfer is to update IDWR records only. This water right is within Water District 01. Process as a no advertize transfer.

Enlargement of Use:

No apparent increase will result from this transfer.

Local Public Interest:

No negative impacts anticipated.

Beneficial Use/Conservation of Water Resources:

No issue identified.
