RE: App For Transfer 70893

Dear Bob;

I am finally making some progress on your transfer to put some additional fish ponds on your Cedar Draw property. Boise has decided that no mitigation will be needed as long as we can limit the ponds to the original development. I understand that you won't know for sure what you can build until you actually build them, but please make your best guess as to the proposed surface area and total pond volume that you will construct if nature doesn't get in the way. I will then use these numbers in an approval condition that should satisfy Boise and allow us to get the application into advertising.

Regards,

James E. Stanton
Sr. Water Resource Agent
