PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 67-14475

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

Condition No. 5 of your water right permit requires that you install and maintain a measuring device and lockable controlling works prior to diversion of water under this right. Please be aware that your failure to have the device installed and operable at the time the department conducts the field examination may jeopardize the validity of the permit. You may request, in writing, a waiver of the condition by the department describing the reasons for the request.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. Therefore, you may wish to install the measuring devices before the department conducts the field examination to avoid any problems in licensing your permit.

Please contact me at 208-287-4952 if you have any questions regarding the permit conditions. If you have questions about the field examination, please contact the **Western** Regional Office of the department at (208) 334-2190.

Sincerely,

Emalee Rushing
