APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of Applicant Patrick W. Lee and/or John T. Brown Phone 208-774-2900
Mailing address Box 61 Sun Valley, Idaho 83353 Email 208-788-3888
2. Source of water supply Lost Creek which is a tributary of Salmon R. - sinks
3. Location of point of diversion is Township 8N Range 14E Sec. 34 in the SE $\frac{1}{4}$,
SE $\frac{1}{4}$, SE $\frac{1}{4}$, Govt. Lot _____, B.M., Custer County;
additional points of diversion if any: _____
4. Water will be used for the following purposes:
Amount 5 cfs for WILDLIFE STORAGE purposes from 1/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per year) DIVERSION TO STORAGE
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
Amount 4.2 AC-FT for WILDLIFE STORAGE purposes from 1/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
5. Total quantity to be appropriated is (a) 1.5 cfs and/or (b) 4.2 AF (see 71-07178)
cubic feet per second acre feet per year
6. Proposed diverting works:
a. Describe type and size of devices used to divert water from the source small hardgate -
measuring weir - underground pipeline to pond
b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet;
total reservoir capacity _____ acre-feet
c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet
d. Is ground water with a temperature of greater than 85°F being sought? _____
e. If well is already drilled, when? _____; Drilling firm _____;
Well was drilled for (well owner) _____; Drilling Permit No. _____
7. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year)
8. Description of proposed uses (if irrigation only, go to item 9):
a. Hydropower; show total feet of head and proposed capacity in kW. _____
b. Stockwatering; list number and kind of livestock. _____
c. Municipal; show name of municipality. _____
d. Domestic; show number of households. _____
e. Other; describe fully. pond (see 71-07178) wild life storage

9. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

Total number of acres to be irrigated: 0-

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? Water right license
No 71-07179

11. a. Who owns the property at the point of diversion? Brown & Lee

b. Who owns the land to be irrigated or place of use? Brown & Lee

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____

12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. see attached cover letter

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½"x11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. (A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.)

BE IT KNOWN that the undersigned hereby makes this application for permit to appropriate the public waters of the State of Idaho as herein set forth.

The water for these two ponds are diverted from three sources, Lost Creek, the Old Lost Creek Channel, and ground water. The water for the two ponds diverted from Lost Creek in the SESE of S34 and delivered through a buried PVC pipeline to the pond. The water for the two ponds diverted from the Old Lost Creek Channel is diverted at the ponds. The ponds are on this stream, which account for the onstream storage. The Old Lost Creek Channel and the Lost Creek channel were connected at one time. There also may be times during high runoff that they still share water, but basically, they are separate at this time. The ground water is diverted from a well in the SESE into a PVC pipeline that
