CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **August 01, 2013**.
2. Subject to all prior water rights.
3. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
4. Diversion and use of water with a temperature greater than 85 degrees Fahrenheit for the uses described above is authorized under this right pursuant to exemption granted by this approval pursuant to Section 42-233(1), Idaho Code. To the extent possible the right holder shall utilize the heat value of the water prior to application of the water for irrigation. If sufficient water is found with a temperature less than 85 degrees Fahrenheit in any well authorized under this right, the direct use of water with a temperature of more than 85 degrees Fahrenheit for irrigation is prohibited.
5. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable water quality permitting requirements administered by the Department of Environmental Quality or the Department of Agriculture.
6. Return flow discharged to a subsurface system must be authorized by a separate injection well permit.
7. Recreation use is for 2 swimming pools.
8. Commercial use is for 1 commercial greenhouse.
9. Domestic use is for 1 private greenhouse.
10. Use of water under this right for uses not associated with irrigation use shall be non-consumptive.
11. Heating use is for 1 home, 1 shop, 2 swimming pools and 2 greenhouses.
12. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 170.
13. Prior to diversion of water under this right, the right holder shall install a lockable device, subject to the approval of the Department, in a manner that will provide the watermaster suitable control of the diversion.

State of Idaho
Department of Water Resources
Permit to Appropriate Water
NO. 72-16772

14. Prior to the diversion and use of water under this right, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point(s) of diversion and in accordance with Department specifications, or shall obtain an approved variance from the Department to employ an alternative method to determine and record the amount of water diverted.
15. When notified by the Department or by a watermaster with regulatory authority over this right, the right holder shall report the amount of water diverted in connection with this right. The report shall be submitted in the manner and frequency specified by the Department or the watermaster.
16. Rights 72-16699 and 72-16772 when combined shall not exceed a total diversion rate of 0.72 cfs used for irrigation and the irrigation of 36 total acres.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 23rd day of July, 2009.

FOR GARY SPACKMAN, Interim Director
