Re: Field Examiner Alert

When licensing this permit, note the power plant found in 7/2008 exam of relinquished 78-7198 is on/near line between SESW and SWSE. This replacement permit was filed and approved for P/U (power P/U equals power plant site) in SWSE. A licensing action to list P/U as SESW and SWSE should be considered a clarification instead of a formal amendment, no \$50 licensing amendment fee should be required. This is consistent with similar actions the department has completed in the past.
