

MEMORANDUM

TO: Water Right File 47-7575

FROM: Sandy Hemenway

DATE: July 13, 2009

SUBJECT: Additional Information

I called Mary Kienlen, to obtain the size of buried line, and some additional information on how the 1.6 acres is irrigated. She did not know the size or actual location of the line, but stated that it was "small" and has "various types of pop-up nozzles and rainbirds throughout the yard." She did not know any more about the system other than she turns it on when she wants to water, and turns it off when she's done.

Mary stated that she does not own shares from Twin Falls Canal Irrigation Co., and that the only water she uses to irrigate, heat, for domestic, and recreational use (the pool) is all from the well.
