

MEMORANDUM

TO: Water Right File 47-7575

FROM: Sandy Hemenway

DATE: July 20, 2009

Subject: Drilling Permits

I spoke with Chad Hersley x4930/IDWR Drilling Permits section, in reference to current regulations. Chad indicated that the conditions listed in the 5/2/1983 were all included in the current regulations. A Drilling Permit is required to conduct modifications to existing wells, and to drill new wells, with an inspection upon completion.

Since the standard conditions for Drilling Permits cover all the conditions that are listed in the 5/2/1983 Order, it was recommended that these conditions not be included on the License for 47-7575.
