RE: Land Owned By Matt Telford In The SE/SW Sec. 33 T. 10S R. 16E

Dear Ms. Hale;

Our records show that Water Permit 47-7254 and SRBA Recommendation 47-7254 cover this property. The permit covers 38 acres of irrigation from waste water. It is my understanding that the former owner tried to obtain Salmon River Canal Co. shares for this land, but was never able to accomplish this. It is also my understanding that the waste water that was used on this land at one time is no longer available due to upstream development. The licensing field examination of this property has not been completed, and may not be for some time; Mr. Telford has not been particularly cooperative in this matter. Corey Skinner has the exam file, so you may wish to contact him directly if you have further questions. This filing is only a permit at this time, and we have no way of knowing what, if anything, will be allowed under the final license. The permit is the property of Mr. Telford, and he would have to assign it to a new buyer in order to change the name of the current owner. A buyer can file an ownership change on the SRBA recommendation once he has a deed showing his purchase of the land.

Regards,

James E. Stanton
Sr. Water Resource Agent
