

REVIEW FOR LICENSE: 47-7696 Sievers

AGENT CONDUCTING REVIEW: Sandy Hemenway

DATE: 7/9/2009

License: I recommend 36.0 acres irrigation within the 77.9 acre PPU (the property still owned & irrigated by applicant); with the existing system, the water can be switched around depending on where the crop is located, and what is being grown (buried 10" line to different locations discharging to 10" gated pipe, then gravity flow). Due to the Examination Fees and information submitted on the form, 36.0 acres & 0.72 cfs (0.02 cfs/acre) is being recommended. Also, the applicant sold off the majority of the property, but still owns 77.9 acres which he still irrigates with the existing system. Beta Seed Inc. currently owns the property Herman Sievers sold. Beta Seed Inc removed all the irrigation pipe and filled in the pond more than 5 years ago, and have no desire to irrigate with waste water. The applicant stated that in the sales contract with Beta Seed Inc., it did not include any portion of the water rights. The capacity of the system is 2.73 cfs, which is more than capable of supplying flow for the requested amount. The Season of Use was changed on the License to reflect the current IDWR standards (in accordance with Memo #9 Licensing)

7/8/2009 Reviewing the file with Shelley Keen, it was determined that the License would be approved for the actual PPU where irrigation was taking place at the time of the field exam.

POD Overlap: POD overlaps with 47-4216

POU Overlap: 47-4216, and shares owned from Twin Falls Canal Co. Irrigation

7/9/2009 Mailed Amendment to applicant w/map indicating location change for POD & PPU (property still owned & irrigated by applicant)

6/17/2009 Field Exam conducted confirming only 1 POD, and original system for licensing (changed POD to reflect correct location)

6/8/2009 Memo in file, phone conversation with Beta Seed Inc, and Herman Sievers

2/21/2005 Memo in file, with location of POD GPSd, and map indicating POU

10/15/1987 Examination Fee submitted (\$100, receipt #44283) amount requesting on form for irrigation of 36.0 acres, 0.72cfs

8/12/1987 Letter from IDWR to submit License Examination Fee on or before 12/11/1987

2/21/1985 Proof of Beneficial Use submitted (proof due by 4/1/1986, per 10/17/1984 letter)

5/1/1981 Letter from Twin Falls Canal Co stating water is waste water, and shareholder has a right to cease wasting water. Additional water will not be put in ditches to insure waste water is available for permits.

4/23/1981 Application for Permit Approved

2/6/1981 Priority Date

2/6/1981 Application for Permit Received (for 4.24 cfs 212.0 acres, season of use 4/1 - 11/1)
